

FLAKES!

Cold Snap

The north wind starts to blow now.
Looks like it's gonna snow now.
Your fingers will freeze, your lips and cheeks will chap!
The sky is turning grey now.
The sun has gone away now,
'Cause out of the blue, we're getting' a cold snap!

It's a cold snap! Cold snap!
We're gonna be ready for that cold snap! Cold snap!
Grab your cap an' tighten the strap.
Check the map, the weather on tap's a cold snap!

It starts with just a few flakes;
Add wind until your house shakes.
Your windows will rattle, and your shutters clap!
Your breath will freeze mid air now.
You'll slip slide ev'ry where now.
Right out of the north, look out, it's a cold snap!

It's a cold snap! Cold snap!
We're gonna be ready for that cold snap! Cold snap!
Grab your cap an' tighten the strap.
Check the map, the weather on tap's a cold snap!

Grab your skates an' find your sled.
Bring a 'board, we're gonna shred!
Keep that warm hat on your head...
I think I'M goin' back to BED!
Don't you love it, when it snows?
See that snowman's funny nose?
Snowball fights where anything goes?

Yeah, but I can't feel my TOES!
Skaters waltzing, sleighbells ring.
Let's all go tobogganing!
Pure, white snow on everything...
Why can't we just CUT TO SPRING? Come on!
Nothin' to do BUT TO BRING it on!

Cold snap! Cold snap!
We're gonna be ready for that cold snap! Cold snap!
Grab your cap an' tighten the strap.
Check the map, the weather on tap's a cold snap!
Cold snap! It's a cold snap!

We're Flakes

Sorry, everybody, we know that it's cold here.
It has to be, or you might see a melting unfold here!
No need to worry, just give us a break.
We're cold as ice, but awf'ly nice:
That's just like a flake!

If you go out walking and take any old street,
You probabl'y know that we're the snow and cousins to
cold sleet!
If you get chilled and you shiver and shake,
Well, don't be blue, 'cause each of you just ran in to a flake!

We're flakes, nothin' but flakes!
Got what it takes! Comin' down all around you.
Flakes! Proud to be flakes, you and me!
Ya gotta love us, can't get enough of us
Goodness snows and goodness sakes,
We're nothin' but flakes!

Blowing in the wind puts us all in a tizzy!
No wonder why, up in the sky, we all get so dizzy!
Flakes are so happy; we have so much fun.
We love a squall, but then we're all terrified of the sun!

We're flakes, nothin' but flakes!
Got what it takes! Comin' down all around you.
Flakes! Proud to be flakes, you and me!
Ya gotta love us, can't get enough of us
*Don't be afraid of us; snowmen are made of us.
Goodness snows and goodness sakes,
We're proud to be FLAKES! FLAKES! FLAKES!

SNIRT

Huh! S – N-IRT!
We're makin' a mess where the snow used t' be!
S-N-IRT
An' you can have our grimy, grungy recipe.
Ya take a little snow, add a little dirt,
And what you get is what we call SNIRT!
Yo! Take a little snow, add a little dirt,
And what you get is what we call SNIRT!

Now out in the streets, they got plenty of DIRT!
An' shovelin' snow makes plenty of HURT!
The mess is BAD, but don't get MAD.
Show some respect for your friend called SNIRT!
Yeah, try to connect with your friend called SNIRT!

Huh! S – N-IRT!
We're makin' a mess where the snow used t' be!
S-N-IRT
An' you can have our grimy, grungy recipe.
Ya take a little snow, add a little dirt,
And what you get is what we call SNIRT!
Yo! Take a little snow, add a little dirt,
And what you get is what we call SNIRT!

We like it all mushy down under our FEET!
We like it with slush, an' we like it with SLEET!
So bring on the MUD, an' bring on the CRUD,
An' bring on the Snirt to make our mess look SWEET!
Yeah, bring on the Snirt to make our mess COMPLETE!

Huh! S – N-IRT!
We're makin' a mess where the snow used t' be!
S-N-IRT
An' you can have our grimy, grungy recipe.
Ya take a little snow, add a little dirt,
And what you get is what we call SNIRT!
Yo! Take a little snow, add a little dirt,
And what you get is what we call SNIRT!

Yeah, what you get is what we--- call---
SNIRT!

Nothing Special

Here I am on top of a snow bank.
Don't know what to do.
Here I am surrounded by my friends.
Why do I feel blue?

With all of us together, protected from the sun,
Why do I feel so lonely?
Why don't I have any fun?

It's 'cause I'm nothing special, nothing new, so easy to ignore.
It's 'cause I'm nothing special, nothing new.
Been there, done that; it's all been done before.
Been there, done that; it's all been done before.

Everyone feels all alone sometimes, even in a crowd.
Just a bunch of little flakes with their heads up in a cloud.
They say no two are alike, now.
They say there is no doubt.
But I see more of the same, now.
Don't know what it's all about.

It's 'cause I'm nothing special, nothing new, so easy to ignore.
It's 'cause I'm nothing special, nothing new.
Been there, done that; it's all been done before.
Been there, done that; it's all been done before.

One in a Million

As you grow, you look all around.
Feels like you're "more of the same".
Like any other one, here comes another one,
Just with another name.
Then someone shows they care about you.
They shelter you from the sun.
Now there is only you...there never could be two...the only one!

You're one in a million!
No other 'neath the sun.
You're one, one in a million!
And the reasons you're special are a million in one.
Just one in a million, but you're a million in one!

Deep inside it's your song to sing.
No one can sing it like you.
And when you start your song,
You'll see before too long,
It's really true!

You're one in a million! (One in a million!)
No other 'neath the sun. (One in a million!)
You're one, one in a million! (One in a million!)
And the reasons you're special are a million in one.
Just one in a million, but you're a million in one!

You're one in a million! (One in a million!)
No other 'neath the sun. (One in a million!)
You're one, one in a million! (One in a million!)
And the reasons you're special are a million in one.
Just one in a million, but you're a million in one!
One! A million in one!
