Year 4 Learning this week

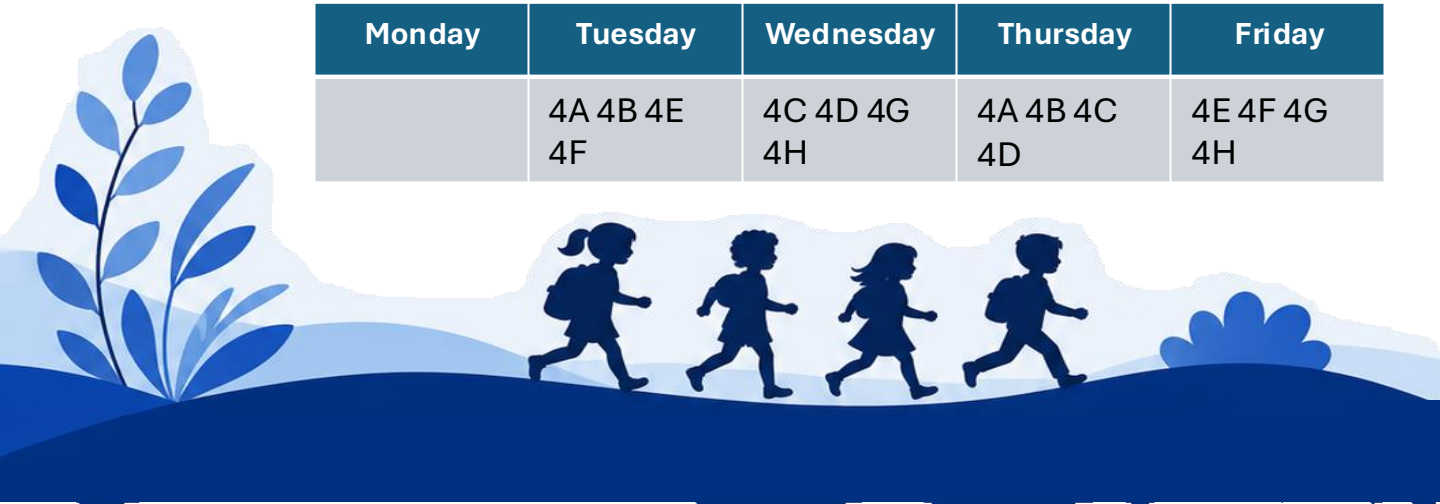

Week beginning: Monday 26th October 2026

This week, we will

English	In English, we will be continuing to build on the features that we have learnt so far about Biographies. We will further be investigating the features of pronouns, heading and subheadings and the difference about facts and opinions. All of our learning will be linked to our model text which is about Sultan Al Neyadi.
Maths	In Maths, we have moved on from addition and subtraction and we are now learning about multiplication. We will be learning about multiplication and division facts for the 3, 6, 9 times tables and the links between them. Please encourage your children to play garage mode on TTRS, to aid in their learning on this topic.
Science	We have begun our learning on the digestive system which we will develop on this week. In the science lab, the children will be making a model of the digestive system to see how it works. In the classroom, the children will be investigating the different types of teeth in animals and why the teeth are different.
Integrated Curriculum	In our topic of Grand designs, we are learning about bridges and why they are used. To help our understanding, the children will be spending their time investigating Abu Dhabi and the key parts of it. They will learn what the most popular areas of Abu Dhabi are and why there are so many bridges.
